

DIVISION OF WILDLIFE
Ohio Department of Natural Resources

**A
 Field
 Checklist**

**BIRDS
of
 OHIO**

The sport of birding is becoming increasingly popular throughout the world and Ohio is no exception. Birding is simply fun, and it arouses scientific curiosity and aesthetic appreciation in those who practice it. The varied habitats of Ohio offer many splendid opportunities for bird observation. Ohio's Watchable Wildlife areas are dispersed across the state and collectively contain on a regular basis the majority of the bird species represented in this list.

Birds are listed by their common names. This list includes those bird species which are usually observed annually in Ohio, as well as rare and accidental species. Many of Ohio's rare birds are in danger of at least local extinction and they and their habitats deserve vigilant protection. The list of accidentals (those species out of their normal range) here is certainly incomplete; given enough time, almost anything from anywhere could show up in Ohio.

The species in this list are grouped taxonomically, separated by order (solid line) and then by family (space). Bird species included in a family show structural and behavioral similarities. Related or similar families of birds are grouped together within an order.

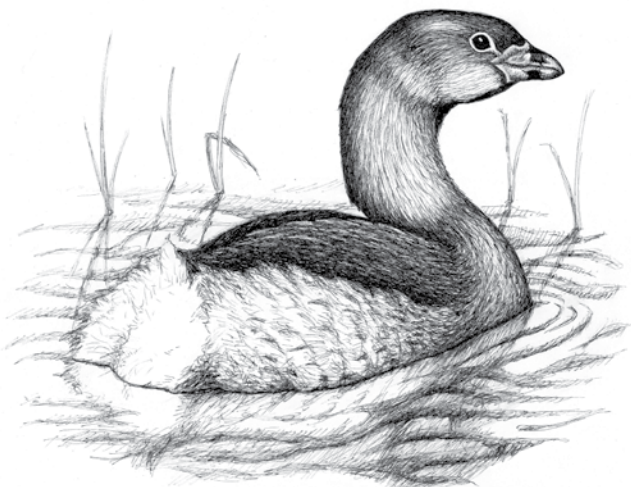

LOONS *to* CORMORANT
